KIT & FIT WORKBOATS FROM GRP LAMINATES

GRP Laminates unique 'Kit & Fit' idea offers an affordable and cost-effective route to a customised South Boats catamaran: widely regarded as the best workboat in its class on the market.

As part of our ongoing partnership with South Boats Special Projects, we're making their superb workboat available as a 'part build' project. Choose from the standard 11 or 12 metre hulls, or ask us about a 10 metre version or smaller size if you prefer.

You save money taking on as much of the build work as you have the time, space and skill to do yourself, with our help. This could be as much as 30% of the fully-built cost, depending on your specification.

The South Boats GRP keel catamaran is highly regarded for its stability and good working deck space. A jet option is also available. This is a new, cost-effective and flexible way for independent, family-owned firms to afford and customise these excellent workboats.

Ideal for fishing, diving, leisure and commercial operators

Operators with the ability and shedspace to finish and kit out their boats themselves can order the hull, wheelhouse, seating, consoles etc. as separate parts. Alternatively we can supply the hull and superstructure ready bonded, for you to fit out as required.

You choose:

- A complete 'kit of parts' to assemble yourself
- OR a part-built boat, with hull, deck and superstructure already bonded
- Customised window and door configuration
- Seating, consoles, lockers, toilet bulkheads, hatches, air intakes and transom outlets
- Over 200 polycor QCC coded gel colours

The chart below lists all the basic components that are available from GRP Laminates, and we can design and mould other bespoke parts to meet your requirements.

Visit www.grplaminates.com For more information email Technical Director Bob Bennett at bmb@grplaminates.com or call 01983 200 988

Your Kit & Fit options from GRP Laminates

| 1. Select Hull | 2. Select Kit & Fit Option | 3. Superstructure Plus |
|--|--|--|
| <p>Kit & Fit your own workboat, starting from one of the well-proven South Boats catamaran hulls.</p> | <p>Decide how much of the work you want GRP Laminates to do, and how much you can do yourself. Select only the components you require. This will enable us to estimate a cost. You can add items later if required.</p> | <p>Your superstructure can be configured to create a workboat that works for you. Select standard options for a fast quote; if you select 'Other', we'll call you back.</p> |
